

**Country plumbing isn't like town.
Only toilet paper can go down!**

Please do NOT flush
Anything but toilet paper.

All other items
Go in the trash can.

Our septic system

Thanks you!

**Those of us with septic tanks,
We just want to be frank.
Flush only toilet paper
and you-know what.
Anything else, including tissues,
Will ensure we'll have
plumbing issues!**

**Here in the Northwoods,
We have a delicate loo.
Anything but toilet paper is taboo.
Tissue is bad.
Dental floss, too.
Hair & feminine products, don't you dare,
As they will definitely cause a scare.
Let's not put anything in the pot
That isn't guaranteed to rot.**
