

# TRUE BLUE Kitchen Cleaners

## TRUE BLUE All Purpose Cleaner

- Pour ½ cup white vinegar in a spray bottle.
- Add 1 teaspoon of castile soap.
- Add 1 cup water.

Optional: Add 5-10 drops of tea tree oil to combat mold and mildew.  
Use a damp sponge or cloth.

## TRUE BLUE Counter Cleaner

(Granite, marble, stone)

- Pour 1 cup hot water in a spray bottle.
- Add 1 teaspoon castile soap

Apply and rub off with a microfiber or soft cotton cloth.  
Do not use vinegar on stone counters - it pits them.

## TRUE BLUE Floor Cleaner

(Including hardwood floors)

- Pour 1 cup of water in a spray bottle
- Add 1 cup cheap vodka
- 3-4 drops of castile soap
- Spray lightly on floor
- Use a microfiber mop

Do not use vinegar on hardwood floors – it dulls the shine.  
Do not let water sit on hardwood floors – it damages the wood.

## **TRUE BLUE Oven Cleaner**

- Remove Oven Racks
- In a bowl, make a baking powder paste.  
½ cup baking soda  
2-3 Tablespoons water
- Coat the interior surfaces of the oven with paste.  
Avoid the heating elements.  
The paste will turn brown as it is rubbed in.
- Allow it to sit 12 hours or overnight.
- Wipe clean with damp cloth.  
Use a plastic spatula to scrape paste as needed.
- Put white vinegar in a spray bottle.  
Spray remaining baking soda residue
- Wipe down with damp cloth
- Replace oven racks.

A reusable non-stick oven liner costs \$20 and makes it easier to clean the bottom of the oven with a damp cloth.

## **TRUE BLUE Oven Rack Cleaning**

- Place 2 towels in the bottom of the bathtub to prevent scratches.
- Place oven racks on top of the towels.
- Cover oven racks with hot water.
- Add ½ cup dishwashing or dishwasher detergent (powder or liquid).
- Stir to dissolve.
- Allow oven racks to soak 4 hour or overnight.

- Use non-abrasive scrub brush, old toothbrush or sponge to clean racks.
- Add a little Bon Ami powder to sponge to remove tough spots.
- Rinse. Dry completely before returning to the oven.

### **TRUE BLUE Drain Cleaner**

- Add ½ cup of baking soda to drain.
- Pour 1 cup white vinegar into the drain  
Let it sit and foam.
- Rinse with a pot of boiling water.
- Optional: Initially add 1/4 cup table salt.

If this doesn't work, try a plunger. If that doesn't work, use a plumber's snake. Call a plumber if these methods don't work.
